

VOICEINSIGHTS AFRICA

SYNTHETIC DEMONSTRATION PUBLICATION

Employee Experience Intelligence Report

Rwanda | Employee Experience

4,609 synthetic responses

Prepared by VoiceInsights Africa

Every Voice. Every Language. Every Insight.

Synthetic demonstration. Not official statistics.

This is not a status update on employee experience performance in Rwanda – it is a decision brief. The governed evidence behind it shows uneven progress, concentrated risk, and a small number of opportunities worth acting on now. Nothing here is asserted without a source: findings are evidence-linked, recommendations are owned, and the underlying dataset is internally consistent throughout.

Sample: 4609 synthetic responses – 82% response rate – 4 regions

Publication quality gate: publication ready

Kigali Headquarters: 53% performance, 1430 responses, risk CRITICAL
Eastern Operations: 54% performance, 1244 responses, risk CRITICAL
Western Operations: 55% performance, 1060 responses, risk CRITICAL
Remote Workforce: 56% performance, 875 responses, risk CRITICAL

sex: Women 52% & Men 47% & Other / prefer not to say 1%

age: 18& 24 24% & 25& 39 38% & 40& 59 27% & 60+ 11%

location: Urban 44% & Rural 56%

IND-01 Manager effectiveness score: 64% vs target 88% â OFF_TRACK
IND-02 Psychological safety index: 65% vs target 89% â OFF_TRACK
IND-03 Internal mobility rate: 66% vs target 90% â OFF_TRACK
IND-04 Critical-talent retention: 67% vs target 91% â OFF_TRACK

Manager effectiveness has become an accountability question rather than a measurement question. Evidence from Kigali Headquarters places the signal at 60% and shows that rural women experience the largest gap between policy intent and lived delivery. The choice facing employee experience leadership in Rwanda is straightforward even if the fix is not: act on manager effectiveness now, concentrated in Kigali Headquarters where rural women carry the largest share of the gap, or accept a wider gap in a year's time. Evidence: EVI-EMP-001, EVI-EMP-004 & Confidence 96.5%

61%. That is the psychological safety signal recorded in Eastern Operations, and the headline figure understates the problem: disaggregated by group, young adults sit well below it. The clearest gap sits in Eastern Operations, concentrated among young adults. A twelve-month delay would let the gap compound into a harder, costlier problem. Evidence: EVI-EMP-002, EVI-EMP-005 â€¢ Confidence 92%

The aggregate result conceals a material implementation divide. Western Operations records a 62% signal for career mobility; the shortfall is concentrated among persons with disabilities, where service continuity and confidence move together. Of every study area examined in Rwanda, career mobility shows up hardest there, and persons with disabilities feel it most. A year of inaction would turn a gap into a pattern that is far harder to reverse.

Evidence: EVI-EMP-003, EVI-EMP-006 & Confidence 93%

Two things are true at once about workload sustainability. The national picture is improving, and Remote Workforce — where frontline workers report a 63% signal — is not improving fast enough to close the gap. Employee experience performance in Rwanda looks stable in aggregate but splits sharply once workload sustainability is disaggregated. Remote Workforce anchors the low end, and frontline workers bear most of that shortfall — a pattern that risks compounding without intervention within the year.

Evidence: EVI-EMP-004, EVI-EMP-007 — Confidence 94%

Progress on critical-talent retention remains visible but not yet durable. The 64% result in Kigali Headquarters weakens after disaggregation, particularly for low-income households, suggesting that current gains depend on delivery conditions that remain fragile. This is not a new problem.

Evidence: EVI-EMP-005, EVI-EMP-008 & Confidence 89.5%

Kigali Headquarters • Rural women in Kigali Headquarters put it plainly: manager effectiveness is what decides whether progress holds or slips back.

Eastern Operations • Why does Eastern Operations lag behind? Ask young adults, and the answer comes back to psychological safety.

Western Operations • Elsewhere, career mobility might be a footnote. For persons with disabilities in Western Operations, it is the whole story.

Remote Workforce • Frontline workers in Remote Workforce frame it simply: when workload sustainability breaks down, everything else does too.

Kigali Headquarters • In Kigali Headquarters, critical-talent retention shapes whether low-income households can turn services into lasting outcomes.

Eastern Operations • Service managers in Eastern Operations put it plainly: manager effectiveness is what decides whether progress holds or slips back.

Western Operations • Why does Western Operations lag behind? Ask community leaders, and the answer comes back to psychological safety.

Remote Workforce • Elsewhere, career mobility might be a footnote. For private-sector partners in Remote Workforce, it is the whole story.

Kigali Headquarters • Rural women in Kigali Headquarters frame it simply: when workload sustainability breaks down, everything else does too.

Eastern Operations • In Eastern Operations, critical-talent retention shapes whether young adults can turn services into lasting outcomes.

Risks and alternative trajectories are modelled to show how VoiceInsights translates evidence into prioritised management choices.

DEC-EMP-01 CRITICAL: Set manager quality as an executive performance measure. Owner: Country Director / Programme Executive; Timeline: 0â 90 days; Indicator: Number of agreed milestones for DEC-EMP-01 confirmed complete at each quarterly review

DEC-EMP-02 CRITICAL: Protect confidential speak-up and response pathways. Owner: Country Director / Programme Executive; Timeline: 3â 12 months; Indicator: Percentage of agreed milestones completed for DEC-EMP-02

DEC-EMP-03 HIGH: Publish transparent internal mobility criteria. Owner: Country Director / Programme Executive; Timeline: 3â 12 months; Indicator: Share of the high-tier delivery plan confirmed complete each quarter (DEC-EMP-03)

DEC-EMP-04 HIGH: Rebalance workload in the highest-burnout functions. Owner: Country Director / Programme Executive; Timeline: 3â 12 months; Indicator: Milestone completion rate tracked against the DEC-EMP-04 delivery plan

DEC-EMP-05 MEDIUM: Create evidence-led retention plans for critical roles. Owner: Country Director / Programme Executive; Timeline: 6â 18 months; Indicator: Proportion of agreed implementation steps verified on schedule for DEC-EMP-05

Set manager quality as an executive performance measure.

Strategic priority: CRITICAL

Evidence used: EVI-EMP-001, EVI-EMP-004

Rationale: Manager effectiveness has become an accountability question rather than a measurement question. Evidence from Kigali Headquarters places the signal at 60% and shows that rural women experience the largest gap between policy intent and lived delivery. The choice facing employee experience leadership in Rwanda is straightforward even if the fix is not: act on manager effectiveness now, concentrated in Kigali Headquarters where rural women carry the largest share of the gap, or accept a wider gap in a year's time.

Expected benefit: A more consistent employee experience for the groups currently furthest behind.

Expected risk: Weak cross-team coordination during early implementation

Dependencies: Timely data collection for the next reporting cycle; Confirmed budget release; Named executive sponsor

Budget requirement: Medium â detailed costing and fiduciary review required

Owner: Country Director / Programme Executive

Supporting organization: M&E, Finance, Safeguarding and Delivery Units

Timeline: 0â 90 days

Monitoring indicator: Number of agreed milestones for DEC-EMP-01 confirmed complete at each quarterly review

Success criteria: At least 80% of milestones achieved with verified evidence

Management response: PENDING FORMAL MANAGEMENT RESPONSE

Follow-up: Assign accountable owner; Validate budget; Approve milestone plan; Review evidence quarterly

Protect confidential speak-up and response pathways.

Strategic priority: CRITICAL

Evidence used: EVI-EMP-002, EVI-EMP-005

Rationale: 61%. That is the psychological safety signal recorded in Eastern Operations, and the headline figure understates the problem: disaggregated by group, young adults sit well below it. The clearest gap sits in Eastern Operations, concentrated among young adults. A twelve-month delay would let the gap compound into a harder, costlier problem.

Expected benefit: Faster, better-evidenced employee experience decisions that corporate leadership can act on with confidence.

Expected risk: Competing priorities crowding out sustained follow-through

Dependencies: Sign-off from the relevant oversight body; Cross-team delivery coordination; Validated operational baseline

Budget requirement: Medium to high â requires a dedicated budget line and phased release

Owner: Country Director / Programme Executive

Supporting organization: M&E, Finance, Safeguarding and Delivery Units

Timeline: 3â 12 months

Monitoring indicator: Percentage of agreed milestones completed for DEC-EMP-02

Success criteria: A majority of milestones achieved, each independently verified against real evidence

Management response: PENDING FORMAL MANAGEMENT RESPONSE

Follow-up: Assign accountable owner; Validate budget; Approve milestone plan; Review evidence quarterly

Publish transparent internal mobility criteria.

Strategic priority: HIGH

Evidence used: EVI-EMP-003, EVI-EMP-006

Rationale: The aggregate result conceals a material implementation divide. Western Operations records a 62% signal for career mobility; the shortfall is concentrated among persons with disabilities, where service continuity and confidence move together. Of every study area examined in Rwanda, career mobility shows up hardest there, and persons with disabilities feel it most. A year of inaction would turn a gap into a pattern that is far harder to reverse.

Expected benefit: Reduced variation in employee experience delivery and a stronger evidence base for the next planning cycle.

Expected risk: Fragmented accountability once implementation moves beyond the pilot stage

Dependencies: Named executive sponsor; Sign-off from the relevant oversight body; Timely data collection for the next reporting cycle

Budget requirement: Low â deliverable inside the current operating budget with light validation

Owner: Country Director / Programme Executive

Supporting organization: M&E, Finance, Safeguarding and Delivery Units

Timeline: 3â 12 months

Monitoring indicator: Share of the high-tier delivery plan confirmed complete each quarter (DEC-EMP-03)

Success criteria: Milestone completion confirmed by evidence review, not self-reported progress

Management response: PENDING FORMAL MANAGEMENT RESPONSE

Follow-up: Assign accountable owner; Validate budget; Approve milestone plan; Review

Rebalance workload in the highest-burnout functions.

Strategic priority: HIGH

Evidence used: EVI-EMP-004, EVI-EMP-007

Rationale: Two things are true at once about workload sustainability. The national picture is improving, and Remote Workforce – where frontline workers report a 63% signal – is not improving fast enough to close the gap. Employee experience performance in Rwanda looks stable in aggregate but splits sharply once workload sustainability is disaggregated. Remote Workforce anchors the low end, and frontline workers bear most of that shortfall – a pattern that risks compounding without intervention within the year.

Expected benefit: A stronger, more defensible case for employee experience investment in the next planning cycle.

Expected risk: Execution capacity and coordination risk

Dependencies: Validated operational baseline; Named executive sponsor; Sign-off from the relevant oversight body

Budget requirement: Medium – likely fundable from existing lines, pending confirmation

Owner: Country Director / Programme Executive

Supporting organization: M&E, Finance, Safeguarding and Delivery Units

Timeline: 3–12 months

Monitoring indicator: Milestone completion rate tracked against the DEC-EMP-04 delivery plan

Success criteria: Verified evidence of at least 80% delivery against the agreed milestone plan

Management response: PENDING FORMAL MANAGEMENT RESPONSE

Follow-up: Assign accountable owner; Validate budget; Approve milestone plan; Review evidence quarterly

Create evidence-led retention plans for critical roles.

Strategic priority: MEDIUM

Evidence used: EVI-EMP-005, EVI-EMP-008

Rationale: Progress on critical-talent retention remains visible but not yet durable.

The 64% result in Kigali Headquarters weakens after disaggregation, particularly for low-income households, suggesting that current gains depend on delivery conditions that remain fragile. This is not a new problem.

Expected benefit: The evidence points toward improved employee experience outcomes, though the size of the gain will depend on how consistently the action is resourced.

Expected risk: Likely – though not certain – erosion of momentum if the initial sponsor changes role

Dependencies: Quarterly evidence review; Validated operational baseline; Named executive sponsor

Budget requirement: Low to medium – validate through the formal planning cycle

Owner: Country Director / Programme Executive

Supporting organization: M&E, Finance, Safeguarding and Delivery Units

Timeline: 6–18 months

Monitoring indicator: Proportion of agreed implementation steps verified on schedule for DEC-EMP-05

Success criteria: At least 80% of milestones achieved with verified evidence

Management response: PENDING FORMAL MANAGEMENT RESPONSE

Follow-up: Assign accountable owner; Validate budget; Approve milestone plan; Review evidence quarterly

research objectives: Assess employee experience performance and equity; Identify operational drivers and decision priorities

evaluation questions: What outcomes are changing?; Who is being left behind?; Which actions are most likely to improve performance?

sampling frame: Synthetic programme population frame for Rwanda

sample size: 4609

stratification: Region; Location type; Sex; Age; Disability

weights: Normalized post-stratification weights

confidence intervals: 95%

design effect: 1.6

missing data: Documented and sensitivity-tested

reliability: Cronbach alpha 0.86

validity: Content and construct validity checks

metadata: Complete synthetic data dictionary and lineage registry

Publication level: 34 generated publication pages

protocol: Governed synthetic research protocol with sampling, weighting, reliability, validity and reproducibility controls

ethics: Synthetic records only; no real participants or personal data

peer review: Independent synthetic-publication review checklist completed

reproducibility: Deterministic inputs, versioned dataset and export manifest

inferential statistics: Enabled where assumptions and design permit

segmentation: Evidence-led segments

trend analysis: Three-period synthetic series

DEC-EMP-01: Set manager quality as an executive performance measure. Owner Country Director / Programme Executive 0 90 days Medium detailed costing and fiduciary review required cost Indicator Number of agreed milestones for DEC-EMP-01 confirmed complete at each quarterly review

DEC-EMP-02: Protect confidential speak-up and response pathways. Owner Country Director / Programme Executive 3 12 months Medium to high requires a dedicated budget line and phased release cost Indicator Percentage of agreed milestones completed for DEC-EMP-02

DEC-EMP-03: Publish transparent internal mobility criteria. Owner Country Director / Programme Executive 3 12 months Low deliverable inside the current operating budget with light validation cost Indicator Share of the high-tier delivery plan confirmed complete each quarter (DEC-EMP-03)

DEC-EMP-04: Rebalance workload in the highest-burnout functions. Owner Country Director / Programme Executive 3 12 months Medium likely fundable from existing lines, pending confirmation cost Indicator Milestone completion rate tracked against the DEC-EMP-04 delivery plan

DEC-EMP-05: Create evidence-led retention plans for critical roles. Owner Country Director / Programme Executive 6 18 months Low to medium validate through the formal planning cycle cost Indicator Proportion of agreed implementation steps verified on schedule for DEC-EMP-05

Relevance: Synthetic evidence indicates a strong relevance signal, subject to the stated design limitations. (83/100). Review relevance evidence at the next formal management gate.

Coherence: Synthetic evidence indicates a moderate-to-strong coherence signal, subject to the stated design limitations. (84/100). Review coherence evidence at the next formal management gate.

Effectiveness: Synthetic evidence indicates a strong effectiveness signal, subject to the stated design limitations. (85/100). Review effectiveness evidence at the next formal management gate.

Efficiency: Synthetic evidence indicates a moderate-to-strong efficiency signal, subject to the stated design limitations. (86/100). Review efficiency evidence at the next formal management gate.

Impact: Synthetic evidence indicates a strong impact signal, subject to the stated design limitations. (87/100). Review impact evidence at the next formal management gate.

Sustainability: Synthetic evidence indicates a moderate-to-strong sustainability signal, subject to the stated design limitations. (88/100). Review sustainability evidence at the next formal management gate.

Impact: Sustained, equitable improvement in employee experience performance

OC-01: Improved employee experience delivery and accountability â indicators IND-01, IND-02

OC-02: More equitable and durable outcomes â indicators IND-03, IND-04

OUT-01: Verified findings and interpreted decision products

OUT-02: Assigned actions with monitoring indicators

Assumptions: Leadership ownership; Safeguarding and privacy controls remain effective

Means of verification: Evidence registry; Quarterly management review; Follow-up measurement

Commitment 1: CHS Commitment 1 â CONTEXT_ONLY. Action: Validate relevance and assign an accountable owner before live use.
